Chatchawan Prommithikun

Junior Software Developer

" I'm a drums teacher turned self-taught developer. I am passionate about learning and acquiring new technical skills to apply them to personal projects. I'm looking for the opportunity to grow in the developer industry. I'm eager to learn new skills and ready to adapt to the new culture and communication. "

Experience

2019-11 -
Current

Drums Teacher

Payap University Music Academy, Chiang Mai
- Planned and prepared individual music lessons to support student needs.
- Arranged performance recitals and concerts to allow students to showcase musical talents.

Independent Projects

Project : Jammming (React)

Challenge Project in Codeacademy
- I build a React web application called Jammming. I use my knowledge of React components, passing state, and requests with the Spotify API to build a website that allows users to search the Spotify library, create a custom playlist, then save it to their Spotify account.
